

Rounding

Rounding to the nearest tens to the following numbers:

1) $235 = \underline{\hspace{2cm}}$

2) $356 = \underline{\hspace{2cm}}$

3) $657 = \underline{\hspace{2cm}}$

4) $356 = \underline{\hspace{2cm}}$

5) $723 = \underline{\hspace{2cm}}$

6) $456 = \underline{\hspace{2cm}}$

7) $231 = \underline{\hspace{2cm}}$

8) $546 = \underline{\hspace{2cm}}$

9) $678 = \underline{\hspace{2cm}}$

Rounding to the nearest hundreds to the following numbers:

1) $2345 = \underline{\hspace{2cm}}$

2) $3045 = \underline{\hspace{2cm}}$

3) $3452 = \underline{\hspace{2cm}}$

4) $3542 = \underline{\hspace{2cm}}$

5) $7293 = \underline{\hspace{2cm}}$

6) $6534 = \underline{\hspace{2cm}}$

Rounding to the nearest thousands to the following numbers:

1) $75648 = \underline{\hspace{2cm}}$

2) $34526 = \underline{\hspace{2cm}}$

3) $54326 = \underline{\hspace{2cm}}$

4) $54362 = \underline{\hspace{2cm}}$

5) $86745 = \underline{\hspace{2cm}}$

6) $93542 = \underline{\hspace{2cm}}$

Rounding to the nearest given numbers :

1) $546 (10) = \underline{\hspace{2cm}}$

2) $35426 (100) = \underline{\hspace{2cm}}$

3) $67289 (100) = \underline{\hspace{2cm}}$

4) $26534 (1000) = \underline{\hspace{2cm}}$

5) $7623 (100) = \underline{\hspace{2cm}}$

6) $543619 (10) = \underline{\hspace{2cm}}$

7) $654378 (100) = \underline{\hspace{2cm}}$

8) $4523 (10) = \underline{\hspace{2cm}}$

(9) $34526 (1000) = \underline{\hspace{2cm}}$

10) $4352 (10) = \underline{\hspace{2cm}}$

11) $2345 (100) = \underline{\hspace{2cm}}$

(12) $2098 (100) = \underline{\hspace{2cm}}$
